

Circular No: BGA/C&M/2026/84

Date: 07 April 2026

To: All Hon'ble Members of BGMEA**Subject: Submission of Latest CAP (Corrective Action Plan) Status of factories under RSC Inspection Activities.**

Dear Sir,

I hope you are well.

With due respect, we would like to inform you that more than 1,800 factories are currently undergoing remediation works under the inspection of the RSC (RMG Sustainability Council). As part of these ongoing remediation efforts, factories have been completing the drawing review processes for Structural (DEA/EA), Fire (FADS, SUPS), Electrical (SLD), and Boiler safety issues.

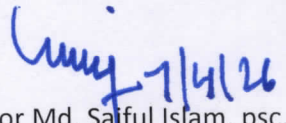

However, it has been observed that some factories are in a critical stage due to pending approvals from RSC, which is causing delays in T&C/follow-up inspection schedules for verification.

In order to address this critical situation, we kindly request you to provide the latest CAP status of your factories, clearly mentioning the specific reasons for delays in resolving the safety issues. Please send the information via email to muneer@bgmea.com.bd by 09 April 2026.

You are also requested to highlight the most critical CAP/pending issues related to Structural, Electrical, Fire, and Boiler safety, where factory owners are facing prolonged difficulties and have already entered the escalation stage.

Thanking you.

Yours sincerely,

Major Md. Saiful Islam, psc, CSCM (Retd.)
Secretary (Acting).
